EN 301 549 v3.2.1 (WCAG 2.1 Level AA)

Report generated on 09/11/2026 — Assessment method: Self-assessment

Criterion	Level	Description	Status	Notes
Principle 1 — Perceivable				
1.1.1	A	Non-text Content	Compliant	Fixed on 27/10/2026: the enlarged gallery photo takes the alternative text of its thumbnail or, in the Living galleries, of the library file. Other images have descriptive alt texts.
1.2.1	A	Audio-only and Video-only	Compliant	Fixed on 27/10/2026: background videos and trailers, silent and decorative, are hidden from assistive technologies (aria-hidden) and the main content is available as text; they can be paused.
1.2.2	A	Captions (Prerecorded)	Non-compliant	By the owner's choice the films (Company page and Infinity compositions) have no captions, transcripts or audio description; the main information is available as text on the page.
1.2.3	A	Audio Description or Media Alternative	Non-compliant	By the owner's choice the films have neither audio description nor a transcript; the main information is available as text on the page.
1.2.4	AA	Captions (Live)	Not applicable	Live audio content in synchronized media must have captions
1.2.5	AA	Audio Description (Prerecorded)	Non-compliant	By the owner's choice the prerecorded films have no audio description; the main information is available as text on the page.
1.3.1	A	Info and Relationships	Compliant	Fixed on 27/10/2026: galleries and films open as dialogs, region buttons expose the selected one (aria-pressed), the current language is exposed (aria-current) and form errors are linked to their fields.
1.3.2	A	Meaningful Sequence	Compliant	The reading order of content must be programmatically determinable when it affects meaning
1.3.3	A	Sensory Characteristics	Compliant	Instructions must not rely solely on shape, color, size, visual location, or sound

Criterion	Level	Description	Status	Notes
1.3.4	AA	Orientation	Compliant	Content must not be restricted to a specific device orientation unless essential
1.3.5	AA	Identify Input Purpose	Compliant	Fixed on 27/10/2026: form fields (name, surname, e-mail, phone, address, city, country) have the autocomplete attribute.
1.4.1	A	Use of Color	Compliant	Color must not be the only means of conveying information, indicating actions, or distinguishing visual elements
1.4.2	A	Audio Control	Compliant	If audio plays automatically for more than 3 seconds, a mechanism must allow pausing or controlling volume
1.4.3	AA	Contrast (Minimum)	Partially compliant	Some small texts stay below 4.5:1: finish names and grey secondary texts (3.3–3.5:1), footer bottom line (2.7:1), form labels (4.2:1), dealer bar button (4.1:1), red codes and buttons on the coloured bands of the Infinity hub (3.3–3.9:1).
1.4.4	AA	Resize Text	Compliant	Text must be resizable up to 200% without loss of content or functionality
1.4.5	AA	Images of Text	Compliant	Real text must be preferred over images of text, unless essential for visual customization
1.4.10	AA	Reflow	Compliant	Fixed on 27/10/2026: legal pages no longer scroll horizontally at 320 and 375 px; below 768 px the cookie table is stacked (one block per cookie).
1.4.11	AA	Non-text Contrast	Compliant	Fixed on 27/10/2026: the line under form fields is #757575 on light forms (4.3:1) and #8a8a8a on dark forms (5:1), above the required 3:1.
1.4.12	AA	Text Spacing	Compliant	Content must not lose functionality when users modify line, paragraph, letter, and word spacing
1.4.13	AA	Content on Hover or Focus	Compliant	Fixed on 27/10/2026: the submenu shown on hover or focus closes with Esc without moving focus, stays open while hovered and reopens when leaving and re-entering.

Criterion	Level	Description	Status	Notes
Principle 2 — Operable				
2.1.1	A	Keyboard	Compliant	All functionality must be operable through a keyboard without requiring specific timing for keystrokes
2.1.2	A	No Keyboard Trap	Compliant	Keyboard focus must not become trapped in any page component
2.1.4	A	Character Key Shortcuts	Compliant	Single-key shortcuts must be able to be turned off, remapped, or active only on focus
2.2.1	A	Timing Adjustable	Compliant	Users must be able to turn off, adjust, or extend time limits, with exceptions
2.2.2	A	Pause, Stop, Hide	Compliant	Fixed on 27/10/2026: background videos have a pause/play button and do not start automatically with reduced motion; auto-rotating chapter photos (desktop only) have a button to stop them and do not rotate with reduced motion. The home card video preview starts only on hover or focus.
2.3.1	A	Three Flashes or Below Threshold	Compliant	No content may flash more than three times per second unless below defined thresholds
2.4.1	A	Bypass Blocks	Compliant	A mechanism must be available to skip blocks of content repeated across multiple pages
2.4.2	A	Page Titled	Compliant	Every web page must have a title that describes its topic or purpose
2.4.3	A	Focus Order	Compliant	Fixed on 27/10/2026: enlarged gallery and film move focus to the Close button, keep it inside and return it to the starting element when closed; the cookie banner no longer declares itself modal.
2.4.4	A	Link Purpose (In Context)	Partially compliant	The "Reserved Area" link in the header points to "#" (no destination).
2.4.5	AA	Multiple Ways	Compliant	At least two ways must be available to reach a page (navigation, search, site map]
2.4.6	AA	Headings and Labels	Compliant	Headings and labels must describe the topic or purpose of content
2.4.7	AA	Focus Visible	Compliant	Fixed on 27/10/2026: light form fields and the dealer search field show a 2 px red bottom line on focus.
2.5.1	A	Pointer Gestures	Compliant	Functionality relying on multipoint gestures must have a single-pointer alternative

Criterion	Level	Description	Status	Notes
2.5.2	A	Pointer Cancellation	Compliant	Functionality must not activate on down-click; it must be possible to abort or undo the action
2.5.3	A	Label in Name	Compliant	The accessible name of components with visible labels must include the label text
2.5.4	A	Motion Actuation	Compliant	Functionality triggered by device motion must have a UI alternative

Criterion	Level	Description	Status	Notes
Principle 3 — Understandable				
3.1.1	A	Language of Page	Compliant	The default language of each web page must be programmatically determinable
3.1.2	AA	Language of Parts	Compliant	The language of each section or phrase in a different language must be programmatically determinable
3.2.1	A	On Focus	Compliant	Focusing on a component must not cause an unexpected change of context
3.2.2	A	On Input	Compliant	Changing an input field must not cause an unexpected change of context without prior notice
3.2.3	AA	Consistent Navigation	Compliant	Navigation mechanisms repeated across pages must maintain the same relative order
3.2.4	AA	Consistent Identification	Compliant	Components with the same functionality must be identified consistently throughout the site
3.3.1	A	Error Identification	Compliant	Fixed on 27/10/2026: the error is a text under the field, linked to it with aria-describedby; the field is marked invalid, a summary states how many fields to correct and focus moves to the first one.
3.3.2	A	Labels or Instructions	Compliant	Labels or instructions must be provided when content requires user input
3.3.3	AA	Error Suggestion	Compliant	If an input error is detected and correction suggestions are known, they must be provided to the user
3.3.4	AA	Error Prevention (Legal, Financial)	Not applicable	For actions with legal or financial implications, submissions must be reversible, verifiable, or confirmable

Criterion	Level	Description	Status	Notes
Principle 4 — Robust				
4.1.1	A	Parsing	Compliant	Markup must have complete open/close tags, correct nesting, and unique attributes (deprecated in WCAG 2.2]
4.1.2	A	Name, Role, Value	Compliant	Fixed on 27/10/2026: enlarged gallery and film have a dialog role and a name; the language switcher exposes the current language (aria-current) and is labelled; region buttons expose the selected state (aria-pressed).
4.1.3	AA	Status Messages	Compliant	Fixed on 27/10/2026: the selected region and the "no results" outcome of the dealer search are announced by a status region; form errors by a summary.

Summary

Compliant: 43

Partially compliant: 2

Non-compliant: 3

Not applicable: 2

To be verified: 0

Total criteria: 50
